

## Sustainable Procurement Policy

*(Updated February 2024. See Diamond Sustainability Report for more information.)*

### Sustainable Procurement

Diamond Packaging is committed to using sustainable paperboard in our folding carton production. We prioritize sourcing from FSC, PEFC, or SFI certified suppliers, ensuring the wood fiber in our paperboard comes from responsibly managed forests. We regularly verify our suppliers' certification status to maintain these standards. Moving forward, we aim to strengthen partnerships with paperboard suppliers who share our dedication to sustainability, further aligning our supply chain with our environmental goals.

#### FSC® Chain of Custody Certified

Diamond has obtained Forest Stewardship Council® (FSC) Chain of Custody certification from Preferred by Nature (formerly NEPCo). FSC certification demonstrates our continued commitment to environmental responsibility. By utilizing paperboard sourced from responsibly managed forests, we can help businesses empower consumers to make more sustainable choices.

#### Sustainable Sourcing Metrics (Certified Paperboard)

Diamond tracks progress on **sustainable sourcing** of paperboard products. We set a **target** to increase the use of certified paperboards by 1% per year over the next 10 years (10% total), based on a 2012 baseline. In 2023, 99% of all paperboard purchases came from certified sources, exceeding our target. In 2024, our goal is to purchase at least 99.8% of all paperboard from certified sources.
